

This Horizon 45 is offered on the market as a project at an incredibly low price. Franzeska is in basic sound condition, engines (800hrs) and generator have recently been serviced. The hull survey is pretty good. I have shown a few photos of her with suggested makeovers (photos from similar boats on the market.) Be aware that a Horizon 45 in top condition of about the same year could sell for over €120,000. So a few thousand spent on Franzeska would be a good investment.
